BBA

General Subjects

Vol. 1117, 1992

Cumulative Contents

Regular Papers

Quantitative separation of uric acid and allantoin from rat liver tissue
A. Di Stefano, M. Pizzichini, R. Leoncini, D. Vannoni, R. Pagani and E. Marinello (Italy) 1

Formation, separation and characterization of three β-1,3-glucanases from *Sclerotium glucanicum*
P. Rapp (Germany) 7

Time course characterization of the induction of cytochrome *P*-450 2E1 by pyrazole and 4-methylpyrazole
D.K. Winters and A.I. Cederbaum (USA) 15

Purification and partial characterization of xanthine oxidase from human milk
S. Abadeh, J. Killacky, M. Benboubetra and R. Harrison (UK) 25

Interaction of carnitine with mitochondrial cardiolipin
D. Battelli, M. Bellei, E. Arrigoni-Martelli, U. Muscatello and V. Bobyleva (Italy) 33

Insulin binding to liver nuclei from lean and obese mice is altered by dietary fat
S.K. Cheema, J. Venkatraman and M.T. Clandinin (Canada, USA) 37

The structural elucidation of the two positional isomers of a mono-glucopyranosyl mono-acyl glycerol derivative from *Cystobacter fuscus* (Myxobacterales)
O.W. Scherer, H. Budzikiewicz, R. Hartmann, R.A. Klein and H. Egge (Germany) 42

An anti-probasin monoclonal antibody recognizes a novel 40-kDa protein localized in rat liver and a specific region of kidney urinary tubule
N. Nishi, Y. Kagawa, H. Miyanaka, H. Oya and F. Wada (Japan) 47

Identification of a rhodopsin photoreceptor in *Euglena gracilis*
P. Gualtieri, P. Pelosi, V. Passarelli and L. Barsanti (Italy) 55

Isolation and characterization of type IX collagen-proteoglycan from the Swarm rat chondrosarcoma
M. Arai, T. Yada, S. Suzuki and K. Kimata (Japan) 60

Structure of the glycan chain from the surface layer glycoprotein of *Clostridium thermohydrosulfuricum* L77-66
E. Altman, J.-R. Brisson, S.M. Gagné, J. Kolbe, P. Messner and U.B. Sleytr (Canada, Austria) 71

Evaluation of the amount of acyl-CoA elongases in leek (*Allium porrum* L) leaves
J.-J. Bessoule, A. Creach, R. Lessire and C. Cassagne (France) 78

Further mechanistic study on intestinal absorption enhanced by unsaturated fatty acids: reversible effect by sulfhydryl modification
M. Murakami, K. Takada and S. Muranishi (Japan) 83

Identification and purification of a novel serine/threonine messenger-independent growth-related protein kinase from lactating goat mammary gland
V.I. Mitev, I.V. Angelov and L.N. Marekov (Bulgaria) 90

Generation of one set of monoclonal antibodies specific for a-pathway ganglio-series gangliosides
M. Kotani, H. Ozawa, I. Kawashima, S. Ando and T. Tai (Japan) 97

Erratum 105

Regular Papers

Chemiluminescence in the crude extracts of soybean seedlings. Postulated mechanism on the formation of hydroperoxide intermediates
H. Watanabe, T. Nagoshi, S. Suzuki, M. Kobayashi, M. Usa and H. Inaba (Japan) 107

Isolation and characterization of a lectin from peanut roots
G. Kalsi, H.R. Das, C.R. Babu and R.H. Das (India) 114

Chemoreception in hydra: specific binding of glutathione to a membrane fraction
W. Grosvenor, S.L. Bellis, G. Kass-Simon and D.E. Rhoads (USA) 120

Binding of interferon-gamma to heparan sulfate is restricted to the heparin-like domains and involves carboxylic – but not *N*-sulfated – groups
H. Lortat-Jacob and J.-A. Grimaud (France) 126

Inhibition of different steps of the ubiquitin system by cisplatin and aclarubicin
T. Isoe, M. Naito, A. Shirai, R. Hirai and T. Tsuruo (Japan) 131

Glutathione-binding proteins identified by monoclonal antibodies which depress the behavioral response evoked by glutathione in Hydra
K. Ohta, K. Hanai and H. Morita (Japan) 136

Occupancy of the cancer cell urokinase receptor (uPAR): Effects of acid elution and exogenous uPA on cell surface urokinase (uPA)
M.S. Baker, X.-M. Liang and W.F. Doe (Australia) 143

Catalase, superoxide dismutase and glutathione peroxidase activities of lung and liver during human development
M.C. McElroy, A.D. Postle and F.J. Kelly (UK) 153

Purification and substrate inactivation of xanthine dehydrogenase from *Chlamydomonas reinhardtii*
R. Pérez-Vicente, J.M. Alamillo, J. Cárdenas and M. Pineda (Spain) 159

Purification and some properties of L-fucose dehydrogenase from *Agrobacterium radiobacter* and its application to the assay of bound-fucose in glycoconjugates
Y. Tsuji, A. Koike, K. Yamamoto and T. Tochikura (Japan) 167

Enhanced intracellular stability of dextran-horse radish peroxidase conjugate: an approach to enzyme replacement therapy
S. Mumtaz and B.K. Bachhawat (India) 174

Differential cumene hydroperoxide sensitivity of cytochrome *P*-450 enzymes IA1 and IIB1 determined by their way of membrane incorporation
W.G. Balvers, M.G. Boersma, C. Veeger and I.M.C.M. Rietjens (Netherlands) 179

One-step purification of tissue-type plasminogen activator using affinity chromatography with a special monoclonal antibody under mild conditions
R. Bos, L. Berger and W. Nieuwenhuizen (Netherlands) 188

Purification of a growth factor from pigeon milk
S. Shetty, S.N. Hegde and L. Bharathi (India) 193

The extent of N^{ϵ}-(carboxymethyl)lysine formation in lens proteins and polylysine by the autoxidation products of ascorbic acid
S.H. Slight, M. Prabhakaram, D.B. Shin, M.S. Feather and B.J. Ortwerth (USA) 199

Site-specific glycation of lens crystallins by ascorbic acid
B.J. Ortwerth, S.H. Slight, M. Prabhakaram, Y. Sun and J.B. Smith (USA) 207

Biological inactivation by singlet oxygen: distinguishing $O_2(^1\Delta_g)$ and $O_2(^1\Sigma_g^+)$
W.R. Midden and T.A. Dahl (USA) 216

Biosynthesis of marsupial milk oligosaccharides II: characterization of a β^6-*N*-acetylglucosaminyltransferase in lactating mammary glands of the tammar wallaby, *Macropus eugenii*
T. Urashima, M. Messer and W.A. Bubb (Australia) 223

Rapid Report

Carbohydrate specificity of the receptor sites of mistletoe toxic lectin-I
A.M. Wu, L.-K. Chin, H. Franz, U. Pfüller and A. Herp (Taiwan, Germany) 232

Erratum 235

Regular Papers

The structural and functional organization of the baseplate distal part of T4 bacteriophage
A.A. Khusainov, A.A. Deev and G.R. Ivanitsky (Russia) 237

Dynamic analysis of efficient heme rotation in myoglobin by NMR spectroscopy
S. Neya, N. Funasaki and M. Nakamura (Japan) 243

Chemical assessment of phospholipid and phosphoenergetic metabolites in regenerating rat liver measured by in vivo and in vitro ^{31}P-NMR
S. Morikawa, T. Inubushi, K. Kitoh, C. Kido and M. Nozaki (Japan) 251

Development of a procedure for coupling the homing device glu-plasminogen to liposomes
J.L.M. Heeremans, J.J. Kraaijenga, P. Los, C. Kluft and D.J.A. Crommelin (The Netherlands) 258

Long-lived fluorescence lifetime from tyrosine in a peptide derived from S-100b
R.J. Turner and G.J. Moore (Canada) 265

Binding of a monoclonal antibody E12 to Gc globulin (vitamin D-binding protein) is inhibited by actin
M. Osawa, A.R.M. Sabbatini, J. Erukhimov, P.A.M. Werner and R.M. Galbraith (USA) 271

Purification, characterization and partial amino acid sequences of a xylanase produced by *Penicillium chrysogenum*
H. Haas, E. Herfurth, G. Stöffler and B. Redl (Austria, Germany) 279

Unequivocal evidence in support of the nonenzymatic redox coupling between glutathione/-glutathione disulfide and ascorbic acid/dehydroascorbic acid
B.S. Winkler (USA) 287

Characterisation of chondroitin/dermatan sulphate proteoglycans synthesised by rat mammary myoepithelial and fibroblastic cell lines
M.J. Warburton, R. Kimbell, S.A. Ferns, A.R. Hayman, N. Perusinghe and P. Monaghan (UK) 291

Immunochemical characterization and toxicological significance of P-450HFLb purified from human fetal livers
M. Kitada, T. Kato, S. Ohmori, T. Kamataki, K. Itahashi, F.P. Guengerich, T. Rikihisa and Y. Kanakubo (Japan, USA) 301

Phenoxazinone synthesis by human hemoglobin
A. Tomoda, H. Hamashima, M. Arisawa, T. Kikuchi, Y. Tezuka and S. Koshimura (Japan) 306

Purification and characterization of ζ-crystallin/quinone reductase from guinea pig liver
P.V. Rao and J.S. Zigler, Jr. (USA) 315

The role of serum and serum components in the merocyanine 540-sensitized photoinactivation of K562 leukemia cells
D.K. Gaffney and F. Sieber (USA) 321

Purification and characterization of thiamine triphosphatase from bovine brain
A.F. Makarchikov and I.P. Chernikevich (Belarus) 326

Measurement of the formation of betaine aldehyde and betaine in rat liver mitochondria by an high pressure liquid chromatography-radioenzymatic assay
J. Zhang, J.K. Blusztajn and S.H. Zeisel (USA) 333

Cumulative Contents, Vol. 1117 341
